- They are your first option if you need help in the water; raise your arm to attract attention.

### **Evacuation**

- The on the water emergency evacuation signals are: 3 short air horn blasts; raised red flags by spotters on the Jetty; and continuous whistles by surf ski paddlers. If you see or hear any of these signals, please exit the swim as directed by SLS personnel.
- There are ladders every 75 metres along the Jetty marked with green feather banners and the landings are marked by large pink buoys.
- Please follow directions given by the SLS personnel on the water or via the public address system on land. The emergency muster area is the amphitheatre in front of the main stage, west of the Jetty.

### **Stingers**

Concerned swimmers should be prepared and take personal measures for protection such as wearing a rash vest or applying stinger cream. If stung, please see a Surf Life Saver on the beach or the first aid team at the medical tent near the recovery area.

There will be a first aid post adjacent to the recovery area. If you need help, please go there.
